

Company Profile

Dear
Sir/Madam

We are glad to introduce ourselves as a group of talented engineers dedicated to air-conditioning (HVAC) system. [S.V.AIRTECH PVT.LTD](http://www.svairtech.in) is a company, which focuses only on providing the air-conditioning solutions, thru sales and servicing of air conditioners. S.V. Airtech is still a young and professional company, even though it has grown many folds. We thankfully attribute our growth to our customers who seek our products and services repeatedly.

The growth of S V Airtech . is testament to the efforts of Proprietors and their ambition to create a dynamic development company capable of excelling in an increasingly competitive market.

We are engaged in all air-conditioning applications and our services range from ductable units to massive **Central air-conditioning plants.** We also serve to provide **Clean room** for various purposes.

We have a full-fledged team of professional design, sales and service engineers equipped with modern technology to enable us to extend our services in a much better & adorable way. We are constantly in touch with the recent development in the field of air-conditioning & include them in our design.

We have just stepped in the business of air-conditioning rather we were associated with this field for quite a long time. In this short span of time, we are able to establish ourselves as a professional project engineering company. We are the Associate partner/ Authorized Preferred Corporate Dealer Of **Hitachi Home & Life Solutions India Ltd. (A group of HITACHI Japan)** world's leading manufacturers of A/C equipment., we have been catering to our clients with quality commitments and customer satisfaction with competitive prices. Fulfilling our customers' demand for the best quality products engineered/supplied to their specifications and requirements continue to be our veiled secret of success.

Sai Ram

We have executed projects not only in Delhi & its outskirts but all over India for reputed companies. We are specialized in hospital and **Central air-conditioning plants** doing air-conditioning of operation theaters and other sensitive areas.

Our quality & the workmanship is good and we adhere to the specifications with respect to time and materials. We are capable of taking any amount of contract & we are well financially sound. The efforts put in by our team in Design, manufacture & commissioning of A/C & clean room are commendable. We have a wide range of ductable units / chillers to suit any requirement rather we are well versed to design any other system to cope with any adverse situation.

Our motto is to provide cost oriented design & air-conditioning system that gives trouble-free operation resulting in customer satisfaction. Whenever you contact us you'll be in touch with an experienced **HVAC engineers** to set all your doubts at rest & answer all your queries. We strive to maintain customer satisfaction & excellent services.

We are confident with our above mentioned techniques & backed up with satisfied customers we will be able to do a very good job up to your entire satisfaction.

Thanking you and assuring our best attention all the times. For

S.V.AIRTECH PVT.LTD

Vijay Singh.

S.V.AIRTECH PVT.LTD as a HVAC Consultants & Contractors Company:

- A company, which is in the field of HVAC Contracting, need not necessarily be a Dealer of any company. As there is no concept of Dealariation of this business.
- This fact is fully supported, by the fact that, Various worldwide Chiller Manufacturers, such as TRANE, YORK Etc. doest not have executing dealers in India, and are selling their chillers in India, thru their Sales Offices and The LOWSIDE Work is executed by the HVAC Contractors, such as us.
- Further to this, fact remains that, worldwide, Chilled Water Lowside work is executed by HVAC Contractors, during/simultaneously with the constructions work of the building and Chillers machines are bought, at the final stage of building, as per the convenience and best suitable Make to customer.

S.V.Airtech Pvt Ltd primarily focuses on the corporate and commercial markets. These include institutional, industrial and government organizations as well as commercial establishments such as showrooms, restaurants, banks, hospitals, shopping malls and boutiques.

In accordance with the nature of products and markets, business drivers, and competitive positioning, the lines of business of [S.V.AIRTECH PVT.LTD](http://www.svairtech.in) can be segmented as follows:

Designs Team: We also have in-house HVAC design team, to support in our execution work.

We have permanent in house qualified Engineers. We have 15 senior and 15 junior, permanent, technicians for various jobs involved in air- conditioning. Other than sufficient numbers of skilled and semi-skilled Ducting fabrication, Chilled Water piping fitters, welders, and ancillary work executing teams
